Activé

Enrico was engaged by me during my stay as Bolton Food CFO, and supported us as Italy & France Accounting and Tax Director from April 21 to Dec 22.

Enrico really made the difference for us: he successfully led the SAP4 transition for the two markets, helped to stabilise and re-motivate some areas of the organization and led the process redesign needed in the post-transition phase.

Enrico demonstrated to be a listener, fast learning senior manager and helped me and the local teams to drive the change towards the new procedures and way of working. When under stress and as the go live was approaching he firmly led the team resolving fast all the upcoming unexpected issues. In similar circumstances I will not hesitate to hire Enrico again.
